

Ythan held their 20ml Hilly on 26th April

No Wheelers went to the line and unfortunately missed a good event which always has it's a pleasant sociable atmosphere about it.

Weather remained "stable" if a little chilly. It did warm up at the start.

Jon Copp (Sandy Wallace Cycles) was head and shoulders above the rest (See result below).

We should now have a new "10" course at Ythan. Yours truly checked the measurement post-race. Is it a fast course?? I reckon it will depend very much on the wind on the day but might have potential. Even with some roughish road surfaces.
Next stage will be to get Isobel to register it.
